

**Meole Brace C of E Primary School and Nursery**

**Our vision for Science**

<p><b>COMMUNITY</b></p> 	<p>Science is the study of the world around us and we aim to deliver a high-quality curriculum that will develop a confidence within our pupils for them to explore the wider <b>community</b> and the environments in which they live.</p> <p>Our science curriculum allows our pupils to develop our school's core values of perseverance, respect and community.</p>
<p><b>RESPECT</b></p> 	<p>While working scientifically, pupils will <b>persevere</b> in a range of experiments, investigations and inquiries to broaden their understanding of the disciplines: Physics, Biology and Chemistry. We intend to satisfy their curiosity and equip them for our ever-changing world.</p> <p>Science lends itself to excellent cross-curricular links and we will provide opportunities that ensure the children develop a deeper <b>respect</b> of the world in which they live.</p>
<p><b>PERSEVERANCE</b></p> 	<p>In addition to all of the above, the children will develop an enjoyment of the subject, be able to explain processes and make informed predictions based on previous learning developing and consolidating their knowledge, skills and understanding year on year.</p>
